RAIL.ONE STARTS COOPERATION IN SWEDISH RAILWAY MARKET

PCM RAIL.ONE AG and S:t Eriks AB have started a cooperation. Both companies are jointly focusing on the upcoming high-speed railway projects in Sweden.

Neumarkt/Germany, September 14, 2017 – With respect to the upcoming high-speed railway projects in Sweden, PCM RAIL.ONE AG and S:t Eriks AB, a leading Swedish producer of high-quality concrete products and supplier to the Swedish railway industry, have started a cooperation. The long track record, dedication to its products and customer orientation as well as the geographic coverage of its manufacturing plants all over Sweden have made S:t Eriks and PCM RAIL.ONE Group ideal partners. For more than 100 years, RAIL.ONE has been a reliable supplier to the railway industry. The focus has always been on the production of concrete sleepers and the development of innovative and sustainable slab track systems.

Working closely together, both companies are committed to add value to the Swedish railway industry through localized production of solutions tailored to the particular requirements in Sweden. With more than 4,000 km of track installed, RAIL.ONE's RHEDA 2000[®] system is one of the most widely applied solutions available today; for high-speed- as well as high-performance-lines. Its versatility and flexibility are some key success factors.
